

ADDITIONAL COVID-19 BOOSTER AVAILABLE FOR HIGH-RISK PEOPLE

You are eligible for an additional dose if...

1.

You are **65+** and received your first Omicron booster at least 4 months ago

2.

You are **immunocompromised** and received an omicron booster at least 2 months ago

More Information

- People with weak immune systems can receive additional doses at intervals decided by their doctor
- Eligibility for extra doses for immunocompromised children (6 months - 4 years old) will depend on the vaccine they have previously received
